

Technical maintenance of aircraft and aircraft engines

1 Introduction

1.1 Introductory lesson

1.2 The importance of aviation

1.3 The state of things in Russian civil aviation

2 Aviation Engineering Service

2.1 Aviation-related jobs

2.2 Aircraft Engineering Service

3 Brief description of the aircraft and helicopter structures

3.1 Airframe

3.2 Power Plant

3.3 Landing Gear

3.4 Controlling the Aircraft

3.5 Power Supply Systems

3.6 Fuel System

4 Types of aircraft maintenance services

4.1 Types of aircraft maintenance services

4.2 Aircraft maintenance and repair

5 Interesting facts about training students

5.1 Vocational training

6 Job prospects for our University graduates

6.1 Job prospects for our University graduates

6.2 Conclusion
